The EPIC Philosophy

Rooted in a profound philosophy, EPIC views every interaction as an opportunity to grow a cult-like following. Our professional team of creatives understand culture and will study your audience, then with engineering, design and build pieces to give your audience a WOW moment that they will want to share.

Scavenger Hunt

Hidden around the expo and at various booths are pieces to a large EPIC branded token.

Your mission is to...

- follow @epicpromotionals on instagram and watch our stories to find clues to where different pieces are hidden
- find a piece of the hidden token
- bring the token piece to the EPIC Promotionals booth to get entered for a chance to win a product that will elevate your trade show engagement
